

Taha Bellotef

Full-Stack Software Engineer

Tunis, Tunisia | Tahabellotef1401@gmail.com | +216 29 668 143 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Summary

Full-Stack Software Engineer with a Software Engineering degree from ESPRIT and hands-on production experience across web, mobile, and AI-driven applications. Currently building a computer-vision-based biomechanical analysis product at **StrideMatch** using **Next.js**, **Kotlin**, and **Python/RTMPose**. Comfortable across the full stack (**Java/Spring Boot**, **React/Next.js**, **Kotlin**) with strong **DevOps** practices (**Docker**, **Kubernetes**, **CI/CD**, **AWS**) and a track record of shipping measurable, production-ready features.

Technical Skills

Languages: JavaScript, TypeScript, Python, Java, Kotlin, C# (.NET), PHP

Frontend: React.js, Next.js, Redux, Angular, Tailwind CSS

Backend: Node.js, Express.js, Spring Boot, Django, FastAPI, Laravel

Mobile: Kotlin (Jetpack Compose), Flutter, React Native

AI / ML & Computer Vision: RTMPose, YOLOv5, OpenAI API, OpenCV, Stable Diffusion

DevOps & Cloud: Docker, Kubernetes, Jenkins, Terraform, AWS (Lambda, ECS, Serverless)

Databases: MongoDB, PostgreSQL, MySQL

Other: REST APIs, Microservices, Kafka, OAuth 2.0 / JWT, CI/CD, Agile, Unit Testing

Experience

Full-Stack Engineer

Paris, France (Remote)

StrideMatch

Jan 2026 – Present

- Built and ship the web platform (**Next.js**, React, TypeScript, Tailwind CSS) and native Android app (**Kotlin**, Jetpack Compose) for an AI-powered running-analysis startup, from architecture through production.
- Co-developed a computer-vision pipeline using **RTMPose** for markerless pose estimation, extracting biomechanical metrics (stride, pronation, cadence, gait symmetry) from multi-angle runner videos.
- Designed a shoe-recommendation engine that maps a runner's biometric profile and analysis results to personalized footwear advice.
- Built a computer-vision foot-scanning feature that determines correct shoe size from multi-angle foot photos, removing manual sizing guesswork.
- Developed a dynamic, tier-based PDF report generator (jsPDF/TypeScript) to deliver branded analysis reports to end users.

Odoo Developer Intern

Tunis, Tunisia

TeamDoo by Okteo

Jul 2024 – Sep 2025

- Built a production Odoo module (**product.set**) with hierarchical pricing logic, automated margins, and a wizard UI, cutting quotation creation time by **80%** and manual errors by **95%**.
- Improved rendering performance by **40%** and integrated PDF generation (wkhtmltopdf) and a dynamic, stateful frontend widget into Odoo's asset pipeline.

Full-Stack MERN Developer Intern

Tunis, Tunisia

WICO – Client: Nefzawa FM

Jan 2023 – Jun 2023

- Built a real-time admin dashboard (React, Chart.js) and a secure online voting platform with **OAuth 2.0** authentication and WebSocket-based live updates.

Projects

ParkIt – Smart Parking Management System

[GitHub](#)

- Real-time parking-spot detection and license-plate recognition (**YOLOv5**, 98% precision) with a reservation system; Next.js, Node.js, MongoDB, ESP32, OpenCV, Docker.

Football Field Reservation Platform

[GitHub](#)

- Kafka**-based microservices platform (5 services) with payment processing and reviews; deployed on **Kubernetes** with **Terraform** IaC and GitLab CI/CD, 80% test coverage (JUnit, Testcontainers).

Mnéma SmartHealth – AI Wellness Platform

[GitHub](#)

- AI-powered nutrition and fitness recommendation platform (**OpenAI API**) on Laravel/AWS Lambda; 4.5/5 average user rating.

Education

ESPRIT School of Engineering

Sep 2023 – Jul 2026

Software Engineering Degree

Higher Institute of Computer Science of Mahdia (ISIMA)

Sep 2020 – Jul 2023

Business Intelligence Diploma

Certifications & Languages

Certifications: AWS Academy Graduate – Cloud Foundations (2025) | Hashgraph Developer Course (2025)

Languages: French (Fluent), English (Fluent), Arabic (Native), German (Intermediate)
